Summary

Computer Science undergraduate with hands-on experience developing web applications, REST APIs, and database-driven solutions using modern technologies. Strong foundation in data structures, object-oriented programming, database management, and software development, demonstrated through academic and personal projects.

Education

B.Tech in Computer Science, Galgotias University — **CGPA: 8.2/10** — **October 2023 – May 2027 (Expected)**
Senior Secondary Education — **Percentage: 68.60%** — **2022 – 2023**
Secondary Education — **Percentage: 90.83%** — **2020 – 2021**

Skills Summary

- **Languages**: C++, Java (Fundamentals), JavaScript
- **Frontend**: HTML, CSS, Bootstrap, Tailwind CSS, React
- **Backend**: Node.js, Express.js, REST APIs
- **Databases**: MongoDB, MySQL, Mongoose
- **Tools**: Git, GitHub, Postman, VS Code
- **Core CS**: Data Structures, OOPs, DBMS, CN, OS

Projects

- **Urban Cart (Full-Stack E-Commerce Platform)** *March 2026*
  - Developed an e-commerce platform allowing users to browse products and manage shopping activities.
  - Built using React, Node.js, Express, and MongoDB with product listing, cart management, and dynamic data handling.
  - Demonstrated full-stack integration by delivering a responsive application with real-world e-commerce functionality.
- **Real-Time Chat Application (MERN Stack & Socket.IO)** *July 2026*
  - Developed a secure real-time messaging platform enabling seamless communication between authenticated users.
  - Built using React, Node.js, Express, MongoDB, Socket.IO, and JWT authentication with persistent login, user search, and live messaging features.
  - Demonstrated full-stack development skills by integrating authentication, REST APIs, real-time communication, and responsive UI design.
- **SyncSales (Lead Management System)** *July 2026*
  - Developed a CRM application to streamline lead management and improve sales workflow efficiency.
  - Implemented lead tracking, status management, agent assignment, comments, and dashboard organization using React, Node.js, Express, and MongoDB.
  - Delivered a responsive full-stack solution showcasing CRUD operations, role-based data management, and scalable application architecture.

Internships

- **Web Development Intern – CodSoft** *July 2025 – August 2025*
  - Designed and implemented projects including a Portfolio Website, Travel Booking Landing Page, and Calculator, focusing on responsive design and interactive user interfaces.

Certifications

- **Networking Virtual Intern – Eduskills** *July 2025 – September 2025*
- **Web Full Stack Developer – Eduskills** *October 2025 – December 2025*

Achievements

- Completed multiple web development projects demonstrating frontend and full-stack fundamentals.
- **Full Stack Development Bootcamp** — Completed an intensive paid bootcamp with multiple hands-on mini projects.
